

RESOLUTION  
JANUARY 2008

WHERE AS Title 1, Section 105 of the Rehabilitation Act establishes State Rehabilitation Councils (SRC), our federal mandates and our partnership with Designated State Units;

And WHERE AS it is a show of respect to our partners in vocational rehabilitation that we are committed to cultivating our strengths and the necessary expertise to enhance what we bring to our partnership;

And WHERE AS the Michigan Rehabilitation Council has an interest in strengthening the public vocational rehabilitation system;

And WHERE AS Councils across the nation and territories have a range of specific local interests and practices; we are more alike than different;

And WHERE AS our collective ability to address the national trends and systemic issues impeding the public vocational rehabilitation system from realizing its full potential is greater than those of any one Council;

And WHERE AS vocational rehabilitation services are a resource in assisting individuals and the broader community of people with disabilities to achieve economic advancement, and ultimately self-determination;

THEREFORE BE IT RESOLVED that the Michigan Rehabilitation Council supports the mission, vision, core values, and goals of the NCSRC, and our councils participation, which includes decision making when representing our council at scheduled meetings, for the purpose of increasing the effectiveness of individual councils and strengthening the public vocational rehabilitation system in our country.

Respectfully Signed:

Cecily Cable
